AN ACT to amend Tennessee Code Annotated, Title 68, relative to HIV/AIDS in the African American community.

WHEREAS, findings suggest that HIV/AIDS in the African American community is a crisis separate and apart from the overall issue of HIV/AIDS in other communities; and

WHEREAS, African Americans, especially women, are disproportionately the most severely impacted by HIV/AIDS and the least likely to receive quality care; now, therefore,

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF TENNESSEE:

SECTION 1. The health equity commission created by § 3-15-401 is hereby urged to study the disproportionate impact that HIV/AIDS has on the African American community. The commission is urged to examine the need to develop, implement, and maintain a comprehensive, culturally sensitive HIV prevention plan targeting communities identified as high-risk in terms of the impact of the disease on African Americans.

SECTION 2. This act shall take effect upon becoming a law, the public welfare requiring it.
